

Name: Date:

There are living things and non- living things. People, animals and plants are living things. Some non-living things are natural, people don't make them. Other non-living things are man-made, people make them, for example, clothes.

1. Circle living things red and non-living things black.

2. Complete the lists.

Living things	Non-living things	
	Natural	Man-made
		Chair

3. What living things and non-living things do you see on your way to school?
